

1 ALMELO

The Almelo cycle parking range takes its name from the town where it was first used. The wheel clamps - a standard design enabling only standard commuter cycles to be parked – are mounted to two parallel steel tubes which are in turn welded to the ‘U’ shaped end frames, also of robust steel tube.

Mainly suitable for normal commuter bicycles. It will not take extra thick or mountain bike tyres. The system consists of U-supports (uprights) and cycle racks. Each combination starts with U-supports (Part code 00.950.000) and a cycle rack. This can then be expanded with intermediate uprights (Part code 00.950.010) and a matching number of cycle racks.

The Almelo model is also available as a double-sided model. With the same benefits, of course!

2 FALCOCITY

The FalcoCity model is a rack which combines the Almelo and Ideal (page 180) models. And now even with stainless steel uprights! The benefits of both models come fully into their own on the FalcoCity model. This cycle rack is highly suitable for all kinds of bicycles, regardless of the tyre width.

The uprights are in stainless steel 316, corn 320.

Some people felt that the lack of an add-on support was a defect. This variant provides for this. The system consists of long or short uprights and start, end and intermediate uprights with the rack element. This enables you to create a solution for any situation and of any length.

Available for 3, 4 or 5 bicycles.

Please note minimum order quantity of 5 racks.

1 ALMELO	
Part code	Description
00.950.000	U-support, end or start
00.950.010	U-support, intermediate
00.950.700	additional charge for powdercoating in a RAL colour
00.953.060	rack for 3 bicycles, length 1,800 mm
00.954.060	rack for 4 bicycles, length 2,400 mm
00.955.060	rack for 5 bicycles, length 3,000 mm
00.976.060	rack for 2x3 bicycles, length 1,800 mm
00.978.060	rack for 2x4 bicycles, length 2,400 mm
00.980.060	rack for 2x5 bicycles, length 3,000 mm
2 FALCOCITY	
Part code	Uprights, stainless steel
05.085.200	short model, start or end support, with base plates
05.085.210	short model, start or end support, with anchor parts
05.085.300	short model, intermediate support, with base plates
05.085.310	short model, intermediate support, with anchor parts
Part code	FalcoCity racks
00.863.060	FalcoCity rack for 3 bicycles, length 1800 mm, without add-on support
00.863.260	FalcoCity rack for 3 bicycles, length 1800 mm, with add-on support
00.864.060	FalcoCity rack for 4 bicycles, length 2400 mm, without add-on support
00.864.260	FalcoCity rack for 4 bicycles, length 2400 mm, with add-on support
