

## 1 BOWLER CROSS GUIDE RAIL

Part of the Bowler coordinated range other products available seating, litter bins and bollards.

The St. Andrew's cross of tubes 30x20x2 mm is welded between a lower and upper tube of 40x40x2 mm.

The side posts have a 200 mm anchor part or a 180x180x10 mm base plate.

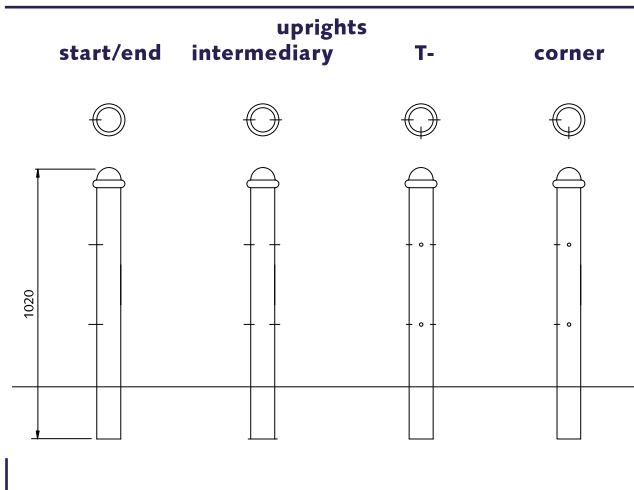

The low picture in blue shows a special with intermediate posts!

## 2 BOWLER CURVED GUIDE RAIL

On these connecting guide barriers, the uprights are connected with curved tubing with a diameter of 60x2 mm, bevelled at the bottom.

The height of the post above ground level is 820 mm. Shown on the picture with base plates, with anchor piece in the description.

You can have an anchor piece of 200 or 400 mm, or a base plate of 200x6 mm. Between the post and the curved tubing there are two aluminium couplings.

## 1 BOWLER CROSS GUIDE RAIL

Part code	Description
02.925.007	barrier fence with St. Andrew's cross, posts c.t.c. 1200 mm
02.925.700	additional charge for powdercoating in RAL colour
02.926.000	barrier fence with St. Andrew's cross, posts c.t.c. 1500 mm
02.926.700	additional charge for powdercoating in RAL colour

## 2 BOWLER CURVED GUIDE RAIL

Part code	Description
02.930.010	start/end post, total length 1050 mm
02.930.700	additional charge for powdercoating in RAL colour
02.931.010	intermediary post, total length 1050 mm
02.931.700	additional charge for powdercoating in RAL colour
02.932.010	T-post, total length 1050 mm
02.932.700	additional charge for powdercoating in RAL colour
02.933.010	corner post, total length 1050 mm
02.933.700	additional charge for powdercoating in RAL colour
02.938.012	curved tubing element to go between posts, length c.t.c. 1200 mm
02.938.712	additional charge for powdercoating in RAL colour
02.938.015	curved tubing element to go between posts, length c.t.c. 1500 mm
02.938.715	additional charge for powdercoating in RAL colour
02.938.018	curved tubing element to go between posts, length c.t.c. 1800 mm
02.938.718	additional charge for powdercoating in RAL colour
