

FALCOFLEX

The FalcoFlex is a flexible alternative to both the Sheffield stand and the FalcoToaster. Manufactured from robust modular steel tubes, the FalcoFlex can be assembled to create an infinite array of designs whilst enable two cycles to be parked at each stand.

The 'waveform' arrangement of the stand enables designers to create straight or curved patterns in conjunction with a particular landscape scheme.

Manufactured from Ø48mm tube modules; top, bottom and end - typically the FalcoFlex is mounted at 700mm between 'peaks' but this can be varied.

The structure is hot-dip galvanised to BS EN ISO 1461 and can be subsequently polyester powder coated in any of the 192 colours of the RAL register.

FALCOFLEX

| Part code | Description |
|------------|---|
| 01.250.000 | FalcoFlex floor support 700x350 mm |
| 01.250.700 | additional charge for powdercoating in a RAL colour |
| 01.251.000 | FalcoFlex upper support 700x350 mm |
| 01.251.700 | additional charge for powdercoating in a RAL colour |
| 01.252.000 | FalcoFlex end/start support 350x350 mm |
| 01.252.700 | additional charge for powdercoating in a RAL colour |
| 99.000.011 | plastic adjuster for floor installation |
| 99.000.201 | end cap, PVC |

FalcoFlex, 01.250 series:

4x Part code 01.250.000 + 5x Part code 01.251.000 + 2x Part code 01.252.000
