

## 1 FALCOPILOT

The FalcoPilot is a functional and yet extremely effective guide rail, manufactured from 42mm galvanised steel tubing that can be on request powder coated in a range of 192 standard colour ranges.

Uses for the FalcoPilot are many and varied, it is available either with extended tubes for below ground installation or with welded base plates, a removable version is also available.

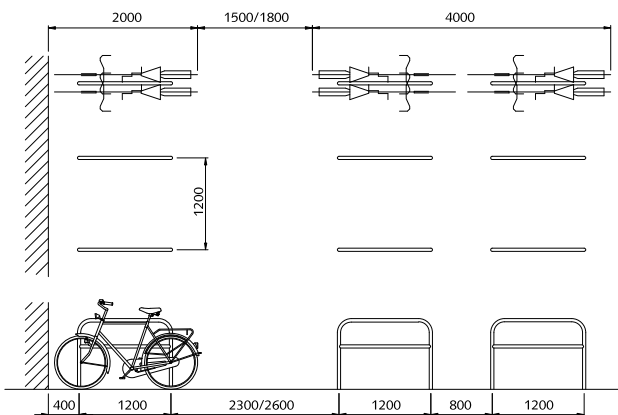

## 2 FALCOPILOT CONTINUOUS

For all types of demarcation and trolley bays etc.

Made from 48mm galvanised steel tubing that can be powder coated on request in range of 192 standard RAL colours.

The system has start and end uprights, and intermediate, corner and T-uprights, which provide optimum flexibility.
